INDEX OF SUBJECTS.

(The entries in heavy type refer to Sections in which abstracts on the subject indicated are grouped together. Page numbers within brackets indicate papers cited by title only.)

Acclimatization
  Climate and, 2nd edition [CASTELLANI] (book review), 628
  of white races in tropics, 60, (151)
Acladium castellanii, 89
Acriflavine, idiosyncrasy to, 833
Actinomycosis in Porto Rico, 836
Addison's disease caused by Lamblia, 456
Adenoma, prostatic, treatment by cobra venom, 521
Administration
  health
    in British Solomon Islands, 16
      Burma, 5
      Ceylon, 9
      China, 11
      Dutch East Indies, 17
      Fiji, 16
      French Indo-China, 2
      Gilbert and Ellice Islands, 16
      Hong Kong, 15
      India, 6
      Japan, 13
      Malaya, 8
      New Hebrides, 17
      North Borneo, 15
      Philippines, 11
      Sarawak, 15
      Siam, 14
      Tonga, 17
  hospital
    during Ethiopian war 1935–36, 819
    of Sudan medical service, 818
Aëdes
  control, larvicides for use on aircraft, 113, 919
  transportation by aircraft, 113
Aëdes aegypti, and see **YELLOW FEVER**
    colour preference, 914
    control, siphonic cistern (Hughes), 120
    cross-fertilization, 117
    egg-production, blood of different vertebrates and, 125
    larvae, infected with yellow fever virus, 489
    prevalence in African colonies, 113
    transmission, experimental, of *P. gallinaceum* by, 105
      of two strains of jungle yellow fever virus, 489
  albopictus, transmission, experimental, of *P. gallinaceum* by, 105
  annandalei, biology of, 913
  fluviatilis as vector of yellow fever, 490
  geniculatus as vector of yellow fever, 117
  scapularis as vector of yellow fever, 490
Agamodistomum neurogangliorum n.sp., 458
Age
  estimation of, in Asiatic girls, 927
  order of epiphysial union in Bengalee girls, 927
Ainhum
  in New York, 445
  -like hyperkeratosis, inherited, 830
Albuminuria and malaria, 260
Alopecia and leprosy, 288
Amblyomma cajennense, vector of Brazilian spotted fever, 801
  striatum
    vector of Brazilian spotted fever, 801
      São Paulo typhus virus, 797, 798
Amoebae of limax type, considered as flagellates, 923
AMOEBIASIS AND DYSENTERY, amoebic liver abscess, etc., 577–592
    in Beirut, 577
      Calcutta, in Europeans, 578
      Cambodia, 217
      Ethiopia among Italian troops, 819
      Germany, 577
      Hanoi, 267
      Italian East Africa, 58
      U.S.A.
        Chicago, 579
        New England, 579
        New Orleans, 585
        Oklahoma City, 578
Amoebiasis *see also Entamoeba histolytica*
  appendicitis and, 586
  caecal tumour in, 586
  diagnosis
    bacteriological, 580
    complement-fixation test, 583
    sigmoidoscopy, 65
  experimental, rôle of intestinal flora, 580
  extraintestinal, 586
  hepatitis with jaundice, 584
  influence of variations in exposure in, 579
  liver
    abscess
      in Germany, 577
      associated with pericarditis, (585)
      treatment
        emetine, 584
        yatren, 136
    changes, (585)
  pellagra and, 684
  resistance of Porto Ricans to, 581
  treatment, 589
    amoebarsen, 588
    biological organic acids, amoebicidal action of, 589
    carbarsone, 579
    emetine and stovarsol, hypersensitivity, 587
    emetine-bismuth-iodide and yatren, 65
    emetine hydrochloride, 579
    entero-vioform, 588
    iodoform, 589
Anaemia
    in Japan, clinical aspect of, (132)

Anaemia—*cont.*
and ankylostomiasis, 278, 279, 673
in Kenya [Corrigendum], 226
sternal puncture in, 849
chronic, in women, treatment by copper, 847
haemolytic, associated with paroxysmal haemoglobinuria, 482
in helminthiasis, oedema, mechanism of, 673
influence of blood sedimentation on, 843
Lederer's, resembling blackwater fever, 483
malarial, sternal puncture in, 849
pernicious
relation to tropical macrocytic anaemia, 846
treatment by congo red, 55
among pregnant women in Assam tea gardens, 82,451
puerperal, treatment by copper, 847
in rural population of Kedah, 821
sickle-cell
in Trinidad, (132)
immunological study, 453
treatment, haematopoietic action of urine in, 848
tropical
in Ethiopia, in Italians, 845
macrocytic
in Ruanda native, 845
relation to pernicious anaemia, 846
treatment
anahaemin, failure of, 846
marmite, 846
Ancylostoma see also Hookworm disease *and Necator*
eggs, Stoll-Hausheer method of counting, 275
braziliense in submucosa of small intestine, 277
caninum, blood-sucking activities of, 279
duodenale, egg production of, 278
Ankylostomiasis *see also* Hookworm disease
in Belgian Congo, Kitega district, 217
Celebes, Lindoe Lake, 218
Ceylon, 11
Cuba, 593
Hanoi, 267
New Caledonia, 593
São Paulo, 275, 674
in school-children, 276
U.S.S.R., Western Georgia, 671
anaemia and, 278, 279, 673
in Kenya [Corrigendum], 226
sternal puncture in, 849
asymptomatic, 673
blood in, 278
in children, 276
control in Fiji, 16
diagnosis, 673
interchange of gases in, 280
and malaria, in the pregnant woman (book review), 252
symptoms
colitis, 593
pigmentation of tongue, 276
treatment, 593, 674
carbon tetrachloride, 275
chenopodium, 275, 282
Didakol, 675
Ankylostomiasis—*cont.*
treatment—*cont.*
entelmintina, 675
tetrachlorethylene, 275, 281, 282, 673
in warm climates, (276)
Anobium (*Stegobium*) *paniceum*, intermediary of *Hymenolepis diminuta*, 271
Anopheles
of Albania, Tirana, 191
Assam, 811
Bannu cantonment, 804
Belgian Congo, 22, 804
Brazil, Pará, 96
São Paulo, 572
China, 913
Foochow, 660
Corsica, 192, 257
Cyprus, 39, 257
Czechoslovakia, 23
Dutch East Indies, 18, 654
Ethiopia, 809, 810
Northern, 192
Federated Malay States, 20
Greek Macedonia, 39, 138
Grenada, 805
Hong Kong, 15, (664)
Hungary, 510
India, 198
Bengal, 189
Poona, 724
Southern, 36
Indo-China, 188, 192, 661, 808
Tonking, 261, 660
Italian East Africa, 509, 510
Somaliland, 23
Italy, 573
Japan, Kweichow and Yunnan Provinces, 191
Kedah, 416
Lang Son Province, 726
Laos, 901
Manchuria, 191
Mauritius, 193
Middle Asia, 134
Panama, 807
Philippines, 11
Portugal, 23
Sardinia, 28
Tanganyika, 916
Tunis, 566
Uganda, 916
Uzbekistan, 134
Yugoslavia, 194
Zanzibar, 916
breeding places in Ethiopia, 192
catching apparatus, 140
control, 804
in Argentine, (261)
Brazil, 96
Dutch East Indies, 19
Egypt, 96
Federated Malay States, 20
India, 198
Portugal, 23
Upper Tonking, 261
Uzbekistan, 134
drainage, 4, 21, 96, 258, 903
periodic, 427
permanent, in Mississippi, 812

Anopheles—*cont.*
control—*cont.*
dusting from airplanes, 134, 512, 725, 805
engineering, 19
Entoray trap, 39
fish breeding, 19, 38, 186, 261, 903
irrigation, intermittent, 133
of rice fields, 23
land reclamation, 258
larvicides, 4
anabadust, 512
chloropicrin, 573
comparative efficacy of, 20
kerosene pyrethrum extract, 260
lethal power, measurement of, 258
Paris green, 9, 97, 196
from aircraft, 512, 725, 805
pyrocide 20 and kerosene oil, 901
metal gauze, 259, 656
netting, 36
oiling, 9, 811
screencloth for houses, 259
screening, metallic, 36, 259, 656
shading, 19, 20, 193
sluicing, 9, 96
spraying, 113, 901, 919
in thatched ceilings, 725
trapping, 39, 140, 916
feather-duster, 199
water-surface agitation, 96
diurnal resting places in Bengal, 189
fauna, in relation to bonification, 573
infectiousness of, 195
larval stages determined by hairs of head, 134
marking with " Gold " powder, method of, 140
nearctic and neotropical, susceptibility to *Plasmodia* from same regions, 659
seasonal prevalence in Indo-China, 661
subgenus *Kerteszia*, 571
zoophilic deviation, 568
zoophilism and anthropophilism, 134
Anopheles aconitus, food preference of, in Indo-China, 192
albimanus
in U.S.A., (198)
breeding, relation to degree of shade in breeding places, 900
and malaria in Panama, 807
and malaria in Porto Rico, 21
albitarsis, 901
in Panama, (140)
experimental infection of, by *P. vivax*, in São Paulo, (571)
algeriensis
differentiation from *A. bifurcatus*, 134
ecology of, 572
bellator in Trinidad, 571
bifurcatus
differentiation from *A. algeriensis*, 134
zoophilism of, 194
costalis, see *A. gambiae*
culicifacies, failure as vector of malaria in Bengal, 39
darlingi, 572
elutus, see *A. sacharovi*
Anopheles funestus
in Northern Rhodesia, 662
East African series, 915
reaction to humidity, 662
gambiae (*costalis*)
in Northern Rhodesia, 662
breeding places in Mauritius, relation of shade to, 193
cage colony of, 194
eggs, viability of, following natural desiccation, 193
reaction to humidity, 662
hyrcanus, zoophilism of, 194
var. *sinensis*
blood preferences
in Shanghai, 197
maxillary teeth and, 197
jeyporiensis, food preference of, in Indo-China, 192
maculipennis
development, temperature and, 189
distomes parasitic in, 458
distribution
in Russia, 661
in daytime shelters, effect of light on, 190
feeding preferences, 136, 426
stimuli guiding, 136
races
Alps, North, 137
Balkan States, 137
Europe, Western and Southern, 138
Greece, Macedonia, 39, 138
Iberian peninsula, 137
Italy, 137, 573
North Africa, 137
Russia, 661
Spain, 190
Sweden, 137
Syria, 137
U.S.S.R., 137
Yugoslavia, 137
race *atroparvus*
in Manchuria, 191
hybridization in nature between race *typicus* and, 571
race *cambournaci*, biology of, 139
race *labranchiae*, exophilia of, relation to malarial transmission, 192
race *messeae*
egg characters, 138
and malaria in Greek Macedonia, 39, 138
zoophilism of, 194
race *sacharovi*, physiological state of female, 134
race *typicus*
Caucasian type, 138
egg characters, 138
hybridization in nature between race *atroparvus* and, 571
and malaria in Greek Macedonia, 39, 138
zoophilism of, 194
salivary and stomach secretion of, 663
transportation on Volga river steamers, 194
marteri, characteristics, 663

Anopheles minimus
food preference of, in Indo-China, 192
and malaria in Laos, 901
sporozoites, persistence in, 569
plumbeus, zoophilism of, 194
pseudopunctipennis, identification of, 916
pullus n.sp., 572
quadrimaculatus, breeding places in North Alabama, physiography in relation to, 188
rivulorum, variations in, (148), 916
sacharovi (*A. elutus*)
exophilia of, relation to malarial transmission, 192
experimentally infected with *P. falciparum* by feeding through prepared animal membrane, 732
infection rate, effect of various factors, 99
and malaria
in Cyprus, 39
Greek Macedonia, 39
relation of blood feeds to ova maturation in, 915
stephensi, races of, 426
strodei, experimental infection of, by *P. vivax* in São Paulo, (571)
sundaicus and malaria in Calcutta, 726
superpictus
biology of, 134

São Paulo typhus
susceptibility of opossum, 365

Typhus Group of Fevers—*cont.*
São Paulo typhus—*cont.*
virus
maintenance in white rats, 786
passage in rats, 797
transmission by *Amblyomma striatum*, 797, 798
tick typhus, *Haemaphysalis leachi* as vector, 787
transmission, ectoparasites of rats and shrews, possible rôle of, 358
treatment, 904
tropical typhus, 359
in Cambodia, in coolies, 780
Indo-China, 788
rural, relation to tsutsugamushi disease, 59
urban, in Saigon, 365
virus, isolated in Saigon, 785
tsutsugamushi disease
in Saigon, 365
immunization experiments, 59
prophylaxis, 374
relation to rural typhus, 59
and typhus-like fevers, 800
" vaccinal " typhus in Tunis, 794
vaccination
in Morocco, 793
bile-treated vaccine, Weil-Felix reaction in vaccinated persons, 368
killed vaccine, 370
Laigret and Durand's method, experimental, 370
with living vaccine in Tunis, 794
with living virus, 357
sero-, 795
Weigl vaccine, 793
virus
agar-slope tissue cultures of, 363
cross immunity tests with Mexican strain, 785
cultivation of, 784
investigations in Tashkent, 135
OXK, attempts at isolation in India, 358
search for in wild rats, 786
Weil-Felix reaction
in anti-typhus inoculated persons, 368
in guineapigs, 368, 792
tests of squirrels for, 779
Ulcers
duodenal, in Zanzibar, 69
of leg, treatment, 830
tropical
in French Guinea, 906
Italian East Africa, 58
New Guinea, 906
diagnosis, differential from New Guinea mouth disease, 829
phagedaenic, treatment, in Pacific, 828
treatment
autohaemotherapy, (907)
copper sulphate, 829, 906
dmelcos, 906
ox-bile, 444
periarterial sympathectomy, 444
Ulosonia parvicornis, intermediary of *Hymenolepis diminuta*, 668
Undulant fever, treatment by
prontosil, 826
sulphanilamide, 826
Urticaria, malaria and, 513
Ustilago maydis causing dermatitis, 92
Vaccine, lymph, preservation of, in tropics, 18
Venereal diseases
in French possessions in Pacific, 904
Italian East Africa, 58
VENOMS AND ANTIVENENES, 430–437, 519–524
Venoms *see also* antivenenes
snake
Ancistrodon, effect on calcium and potassium content of rabbit serum, 519
Australian, coagulating action on blood, 430
Bitis arietans, comparative toxicity, 522
gabonica, comparative toxicity, 522
Bothrops jararaca, coagulant principle, (431)
Bungarus multicinctus, effect on calcium and potassium content of rabbit serum, 519
cobra
Indian
circulatory effects in cats, 436
in dogs, 436
effects on blood of monkeys, 437
isolation of neurotoxin and haemolysin of, 430
therapeutic uses of, 520, 521, 891
Crotalus
comparative toxicity of various strains, 432
effect on calcium and potassium content of rabbit serum, 519
of Formosa, (433)
pathologic changes in dogs following injection of, 432
Crotalus terrificus, geographical variations, 431
Denisonia superba, 434
effect of infra-red rays on, 433
European hybrid, 430
Lachesis erythromelas in Brazil, 433
moccasin, cataphoretic separation of toxic components of, 433
Naja naja atra, effect on calcium and potassium content of rabbit serum, 519
therapeutic, (523)
ophthalmic, 523
Vipera aspis
action on nervous system, 435
detoxication of by sodium ricinoleate, 435
latasti, 519
lebetina, 519
Verruga peruviana *see* Carrion's disease
Veterinary and medical entomology, treatise on (book review), 931
Vincent's angina spirochaetes, staining of, 908
Vital statistics of French possessions in Pacific, 904
Vitamin B_1 in neural leprosy, 557
B_1 and B_2, 684

Vivisection, the Truth about (book review), 852
Wassermann reaction
in Australian aborigines, 822
in leprosy, 552
in relapsing fever, 128
Water
chemical treatment in Federated Malay States, 59
purification
in relation to schistosome cercariae, 600
for rural communities, 3
supplies of Kedah, 821
Weil's disease *see* Jaundice, infectious
Weil-Felix reaction in trachoma, 856
Welfare of children in Gold Coast, 439
Winiwarter-Buerger disease, 445
Wuchereria bancrofti see under Filaria
Xerophthalmia
in China, 12
Dutch East Indies, 18
Yaws
in British Solomon Islands, 882
Dutch East Indies, 19
French colonies, 904
Indo-China, 4
possessions in Pacific, 904
Kedah, 821
New Hebrides, 17
Sarawak, 16
control
in Ceylon, 10
Fiji, 16
treatment, 904
bismuth salicylate, 4
N.A.B., 16
neosalvarsan, 19
YELLOW FEVER, 110–126, 486–498
in Africa,
Congo, Moyen, 486, 488
Dahomey, 111, 486
French colonies, 111, 486, 904
Equatorial, 114, 486
Guinea, 115
Sudan, 111
Gabon, 111, 486
Gold Coast, 111, 486
Ivory Coast, 111, 117, 486
Nigeria, 111, 486
Oubangui-Chari, 486
Senegal, 111, 118, 486
Sierra Leone, 111
in America
Brazil, 110, 486, 488
Chile, 1912 epidemic, 488
Colombia, 110, 486
Paraná, 115
Paraguay, 486
Peru, 486, 487
São Paulo, 118
Surinam, 115
Venezuela, (116)
aetiology, 376
atypical case, 117
control
in U.S.A., 493
air travel, 113, 122
on board ship, 121
Councilman-Rocha Lima's cell, 492
Yellow Fever—*cont.*
diagnosis
differential, 491
histological, 119, 492
changes, 118, 491
histopathological, 492
hyaline necrosis of liver cells, 112
endemicity in Africa and America, 119
epidemiology, (114), 487, 488
histological changes compared with those of infectious jaundice and typhus, 119
" hyaline necrosis " of liver cells in, 112
immune bodies
in African monkeys, 124
and animal sera, 125
in serum from jaundice patients in Belgian Congo, 491
immunity
in America, South, 114
in Lower Congo, among children, 491
in offspring of immune mothers, 496
immunization
and acute hepatitis, 119
with killed viruses, technical difficulties of, 123
inclusion bodies in brain of fatal case, 118
jungle
in Brazil, 488
São Paulo, 488, (489)
virus isolated in, (498)
transmission by *Aëdes aegypti*, 489
monkeys, positive protection tests in, in Africa, 111
non-apparent, detection by inoculation of virus into dogs, 119
prophylaxis, (488)
protection tests, 120
in America, South, 114
French Equatorial Africa, 114
Surinam, 116
on cattle, 111
on infants, 497
on newly-born monkeys, 496
quarantine, 493
spread of, (498)
symptoms simulating after ingestion of carbon tetrachloride, 392
transmission
Aëdes aegypti, 489
fluviatilis, 490
geniculatus, 117
scapularis, 490
in African colonies, 113
by aircraft, 113
Brazilian mosquitoes, capacity of, 490
Haemagogus mosquitoes, 491
prevention of, on aircraft, 122
treatment, 904
vaccination
in Brazil 1930–1937, 493
attenuated pantropic virus, 112
attenuated tissue culture virus, 487
bile-treated virus, 494
cultivated virus and immune serum, 494
fatal case following, 111
with non-infective virus, 123

Yellow Fever—*cont.*
virus
action of bile on, 494
attempted transmission in embryonic tissue cultures by *Aëdes*, 124
multiplication of, in *Aëdes aegypti*, 122
neurotropic, susceptibility of baboons to, 497
Yellow Fever—*cont.*
virus—*cont.*
non-susceptibility of cat, 119
propagation of, in mouse testes, 496
Ricou strain, 118
strains of, isolated by intracerebra inoculation of patient's bloo into mice, 495
viscerotomy service in Brazil, 493
